

## Invitation: First UNI-SET workshop to identify future professional profiles

On 19th May, KIC InnoEnergy and KU Leuven warmly invite you to the UNI-SET workshop in the Faculty Club in Leuven. UNI-SET, the association of universities in the SET-plan, wants to identify the professional profiles which are needed in the long term in the energy sector. In order to do this, the UNI-SET partners organise several workshops for industry and academia to think about the characteristics of our future game-changers. This first workshop will feature experts from public bodies and research, working in Europe's Energy Strategy.

What's on the agenda?

12h: Lunch reception

13h: The next Energy challenges in Europe: SET-Plan integrated roadmap

13h30: Workshop for the identification of future professional profiles

15h: Farewell coffee

This workshop is organised in co-operation with iiESI, a community of scholars and practitioners from around the world engaged in developing an efficient global energy system.

We have chosen a special venue for this event, room Swerius in the Faculty Club in Leuven: Groot Begijnhof 14 3000 Leuven [www.facultyclub.be/en](http://www.facultyclub.be/en)

You can confirm your attendance by sending a mail to [mar.martinez@esat.kuleuven.be](mailto:mar.martinez@esat.kuleuven.be) or to [johan.driesen@esat.kuleuven.be](mailto:johan.driesen@esat.kuleuven.be).

Looking forward to meet you there!
